

## PAGEANT OF PORTERVILLE WILL FEATURE ENTERTAINMENT AT THIRD ANNUAL FAIR IN MAY

A historical pageant of Porterville, including a cast of some 300 persons, will highlight the entertainment features of the third annual Tulare County Junior Livestock Show and Community fair that is slated for the Rocky Hill arena, Porterville, May 25 through 28.

The spectacular production, which will be presented the opening and closing nights of the fair, is being staged by Porterville's Barn theater under direction of Pete Tewksbury. Early-day information is being furnished by Miss Ina Stiner, retired Porterville high school faculty member and noted historian of Porterville and Tulare county.

Significant and dramatic events in the development of the Porterville community are being written into the pageant, which will be staged in the arena area.

### LAND LEVELING

Preparing for two "big tops" and a carnival midway, land just south of the Rocky Hill arena is this being leveled. John Warnock, Porterville, is donating his equipment and services for the job as a contribution to the Porterville Fair association.

Other evening entertainment at the fair will include the annual Junior Horse show, May 26 and Hot Rod racing May 27. In addition, free entertainment will be provided on the fair grounds each afternoon and evening of the four-day show.

## Annual County Sponsors' Dinner Will Feature 4-H Week Observance

Fifth Annual 4-H Sponsors' dinner, Tuesday evening in the Porterville High School cafeteria, will highlight Tulare county's observance of National 4-H club week, March 4-12.

Speaker at the dinner meeting will be J. Earl Coke, director of the California Agricultural Extension service. Representatives of organizations sponsoring 4-H clubs, and individuals throughout the county who have in some manner contributed to 4-H activity, will be guests at the meeting.

### Demonstrations Planned

Included on the evening program will be special music, community singing and demonstrations by teams of senior 4-H club members. H. H. Sortor, president of the Tulare County 4-H council, will preside.

The week of March 4-12 is one of two weeks officially observed each year by the 4-H organizations, the period being National 4-H Achievement week in November. During the March observance, 4-H members will attend churches as an organization, will wear their

## GRISWOLD IS RODEO CHAIRMAN

Darwin Griswold has been named general chairman for the annual April rodeo that is sponsored by the Springville chamber of commerce at the Gill arena on the Balch Park road, and committees are going to work on the big spring event.

A top show is being promised by chamber of commerce members, who point out that at the time of the rodeo, the foothill country around Springville is at its best and that, as in past years, a number of visitors from the valley will enjoy a picnic outing on the day of the show.

Springville chamber of commerce officers, recently elected, who are pushing the event are: Monte Gifford, president; Jack Sanders, secretary and Dale Trimel, vice president.

uniforms, will show special window displays in stores of the county and conduct special meetings.

J. EARL COKE, director, University of California Agricultural Extension service, who will be the principal speaker at a 4-H Club Sponsors' dinner, March 7, in the Porterville High School cafeteria.

## J. Howard Williams Announces

State Senator J. Howard Williams, Porterville, today announced that he will be a candidate for reelection from the 32nd Sena-

J. HOWARD WILLIAMS

torial District that includes Tulare County.

In making the announcement, Mr. Williams said, "When elected to the California State Senate in 1946, I promised that I would serve as State Senator on a 'full time' basis, and I have carried out that promise.

"If reelected, I will continue to make my business, that of representing the people of Tulare County. Our County with its rapid growth and the important part we play in the economy of our State makes it necessary that your representative in Sacramento conduct his office on a full time basis."

Mr. Williams is a member of the Senate Committee on Agriculture, Fish and Game, Water Resources, Labor, and Institutions. He is also a member of the following Interim Committees: Fish and Game, Water Problems, Education, Housing and Redevelopment.

"Through work on these com-

## DOMER POWER AGAIN HEADS ASSOCIATION

Domer Power, Lindsay rancher, was reelected chairman of the board of the Tulare County Rural Housing association at the third annual meeting of the association held Monday evening in the Exeter Women's club.

Other board members elected were: Byron Jennings, Visalia, vice chairman; Fred Williams, Cotton Center, secretary-treasurer and Carl Pennebaker, Exeter and Leland Martin, Tulare, directors. Manager of the Woodville and Linell farm labor camps operated by the association is Jim Stein.

### "In The Black"

One hundred fifty association members present heard reports indicating that since the non-profit organization has taken over the two camps, operation has "been in the black". The association assumed responsibility for the camps about three years ago when federal funds, formerly used for their operation, were cut off.

Mr. Power states that the association is in business only to provide housing for agricultural laborers. He said that the association "has no ax to grind," concerning where or for whom residents work.

(Continued on Page 2)

## SCOUT PROGRAM

Organizations of the Springville community will join in a social evening May 5, scheduled for the elementary school lawn, when Springville Boy Scout troop No. 37 presents an ice cream social and a motion picture to raise funds to send two boys to the National Scout Jamboree at Valley Forge in June. A queen of the event will be selected by community balloting.

## PIXLEY MEETING

William Wilson, safety engineer for the division of industrial safety state of California, will speak on "Farm Safety" at a dinner meeting of the Pixley Farm Center the evening of March 24 at the Pixley Court cafe.

Also on the program will be Curley Edginton, of the Cal-Farm Insurance company. Roy Murray, chairman, is extending an invitation to all Bureau members in the Pixley district.

ANOTHER WINNER! Allen Freeman, right, cashes in three Porterville Merchant-Farm Tribune subscription points for two pair of Levi's from Ike Pollard at Legget's in Porterville. There's still plenty of time to get in on the great premium award offer by simply checking at the office of The Farm Tribune, 522 N. Main street, Porterville.

## CROMWELL WILL SPEAK AT BANQUET

Dean Bartlett Cromwell, track coach at the University of Southern California for 40 years and former coach of the United States Olympic team, will be principal speaker at the annual banquet of the Porterville chamber of commerce, the evening of March 21 at the high school cafeteria.

Mr. Cromwell will speak on "Worldwide Sportsmanship," in keeping with the main theme of the chamber dinner this year—Sports and Recreation in the Porterville area. The Porterville date will be the famous track coach's first public appearance since returning from the Central American and Caribbean games that will end March 12.

Under Coach Cromwell, Trojan teams have won Nine 1-C-4-A meets; 12 NCAA meets including nine in A row from 1935-1943. (Continued on Page 2)

## J. J. Hatfield Tops Cattle Judging; Porterville Wins Vanderhoof Event

J. J. Hatfield, Porterville Future Farmer and high school sophomore, led a field of 162 Future Farmers from 21 San Joaquin Valley schools in a beef cattle judging contest at the annual field day sponsored by the Vanderhoof Hereford ranch at Woodlake, Saturday, as a Porterville F. F. A. team, composed of Hatfield, Walter Hunsaker and Pete Hughart, amassed 2,795 points out of a possible 3,300 to top team competition.

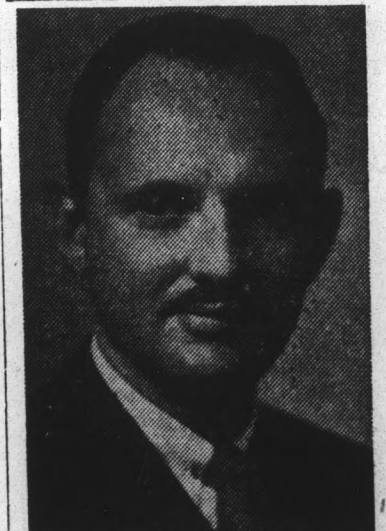

The contest consisted of judging and giving reasons for placings on nine classes of bulls, heifers and steers. In the bull judging division, Clarence Kays, Porterville took fourth place; others making the trip were U. A. Hatfield, John Deming, Bobby Stevens, George Williams and Lyle Attebury.

Following judging, Mr. Van-

### CATTLEMEN'S DINNER

F. R. Farnsworth, Bill Dennis, Oscar Klien, and, from Visalia, Jack Chrisman, plan to attend a banquet in Fresno tomorrow evening at which a group of magazine publishers and editors, touring as guests of Armour & Co., will be entertained at dinner.

derhoof took steers from the top and bottom of the judging and had them slaughtered and dressed to give the boys a chance to study difference in carcasses.

AUBREY M. LUMLEY, JR., who this week announced his candidacy for reelection as justice of the peace, Porterville judicial township. Mr. Lumley was appointed to fill the unexpired term of his father, the late Aubrey M. Lumley, and has been twice elected to the position.

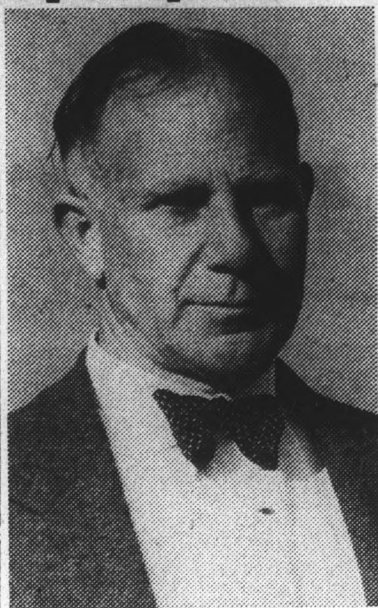

## Dean Cromwell Banquet Speaker

(Continued from Page 1)

From 1930-1948 Trojan teams lost only two dual meets to college rivals, and won all Pacific Coast conference meets from 1936-1948.

"The Dean" has one of the finest coaching records in the history of sport. He has coached individual Olympic champions since 1912, including such stars as Charles Paddock, Earle Meadows, and Mel Patton.

The Porterville chamber of commerce, through its manager, Andy Morrison, has announced that tickets would be available immediately at \$2.50 each. It is planned to have a limited number available to accommodate persons living in the San Joaquin valley who will want to hear Coach Cromwell. Necessary reservations can be made by writing to chamber of commerce Porterville, P.

DEAN CROMWELL, World famous track coach, will appear as the principal speaker at the annual Porterville chamber of commerce banquet March 12.

O. Box 488, or by telephoning 286. No tickets will be sold at the door.

Mr. Morrison asked members of the chamber to make reservations at once to avoid disappointment. Over 100 requests for reservations have already been made, and not more than 500 tickets will be sold in order to avoid overcrowding of the high school cafeteria.

## DOMER POWER

(Continued from Page 1)

### Fisher Speaks

Discussed at the mtg were possible methods through which the association is attempting to find a way to relieve the burden that the two camps bring to adjacent school districts, since the association cannot pay in lieu tax as the federal government formerly did.

Speaking at the Monday meeting were Leo Fisher, manager, state employment service, social security and employment insurance, Visalia, and State Senator Raymond C. Gillespie, of Winterset, Iowa.

## First Three Weeks Critical For Chicks

The first two or three weeks are critical in the life of a baby chick, Farm Advisor W. F. Rooney states, with a complete mash recommended as soon after hatching as possible.

Mr. Rooney lists these points for consideration: Give feed containing high levels of grains, proteins and vitamins to chicks being raised for meat production; keep alfalfa meal below four per cent and milling by-products below 14 per cent; replacement chicks do not need such costly feed.

Feeding of cracked grains for the first two or three days to prevent "pasting up" give chicks a slow start; use only if necessary or recommended by feed manufacturer; fineness of grind of mash does not seem to be a factor in rapid growth or egg production; pellet feeds reduce waste but may increase cannibalism and are usually 10 cents or more per hundred pounds higher in price.

## JIM HUGHES CONTINUES STORY ON COLLEGE CLASS VISIT TO MENTAL HOSPITAL AT STOCKTON

By JIM HUGHES

Upon first arriving at the Stockton State Mental hospital, the visiting Porterville College Psychology class of K. L. Biggs, found themselves in surroundings strikingly similar to the campus of an average college or university. Only one building looked as though it were a part of a mental institution, an 80 year old red brick structure complete with barred windows. This remnant, a grim reminder of the dark age of mental illness, is slated to be replaced with a new unit during the next few years.

Distributed about the area, separated by broad expanses of oak-shaded, well-kept lawn, are the newer edifices, constructed during the last 15 years. Most of these pleasant appearing units reflect an architecture characteristic of the Norman period. The interior decoration of these new "cottages", as they are officially called in hospital circles, is extremely colorful with shades of red, blue, orange, yellow and green, making for a most cheerful atmosphere. The doctor explained that these enlivening colors were strived for to make the guests feel as happy as possible in their confinement.

Locked doors are necessary not so much to prevent the inmates from escaping, rather to keep the confused individuals from becoming lost in their unfamiliar environment. Many have the freedom of the grounds and it is a common sight to see patients sitting on the numerous park style benches visiting. The doctor disclosed that some are even issued passes to town for short periods.

The modern, widely-used treatment of electro-shock therapy has supplanted many other formerly used techniques. Among these is the hydro-therapy tub, a device closely resembling a common bath tub. However, the hydro-therapy tub is equipped with a hammock-like arrangement to support the weight of the patient.

An uncontrollable individual is strapped in, only the head showing as it protrudes through a hole in the canvas covering. The soothing effect of the warm running water eventually quiets the person. Occasionally it is necessary to restrain the patient in the tub for several days. The constantly running water carries with it all secretions.

Dr. Weiss proceeded to explain an operation in psycho-surgery hailed as one of the great discoveries of neurology. Lobotomy, as it is called, is practiced on those whom electro-shock therapy does not affect.

Accomplished as intended, the operation results in a violently excitable person becoming complacent and able to be reasoned with. The surgery involves a nickle-sized hole being drilled in

the frontal portion of each side of the skull. The surgeon deftly inserts an instrument similar to a butter knife. With a sweeping cut, certain frontal lobe fibers which pertain to the emotional life of the patient are severed, and repeated on the opposite side.

This is a major operation and usually requires a half to one hour to accomplish. Unfortunately the fatality rate in this delicate procedure is high—five per cent. Consequently it is only practiced on those who haven't responded to other methods.

A successful operation results in the patient's regained ability to hold a job, or, at any rate an improvement. Dr. Weiss cited as an example of a successful case, a competent stenographer currently working for a downtown Stockton business concern.

The doctor briefly lingered on trans-orbital (through the orbit or eye socket) lobotomy, which will eventually supercede the now more widely used pre-frontal lobotomy. While unconscious, an ice pick like instrument is driven through the bony portion of the eye socket of the patient. With a swift turn, the same connecting nerve pathways are severed, and the process is repeated on the other side. This simplified version takes only 10 minutes. The patient remembers nothing of the experience, however, two beautiful shiners will for a few days testify as to what he or she has been through.

## SOMEONE BOUND TO GET FOILED AS 22 ACTORS PREPARE TO OPEN "THE DEAD SISTER'S SECRET"

Friday, March 3 at 8:00 P.M. the villian will again pursue the poor harried heroine across the fake gaslights of The Barn Theater in Porterville for a first performance of "The Dead Sisters Secret or With That Many Actors Somebody's Bound To Get Foiled."

Running March 3, 4, 9, 10 and 11 at 8:00 P. M. and Sundays, March 5 and 12 at 3:00 P. M., this melodrama of the Gay 90's will display the talents of some 40 valley actors, actresses, singers and stage crew, including 10 olio acts and almost two dozen old time songs.

Headlining this ambitious bill of last century are Leland Mehrtzen of Exeter as the Hero, John Dalton, in his first Barn role. Carol Norman of Strathmore plays the innocent and much plagued Nellie. John Vaznaian, Porterville teacher, appears as the black-moustached villian, while, in his first part, Bill Palmer of Strathmore assists in his dirty work.

The intrepid housekeeper, Lizzie, is portrayed by Ann B. Davis, one of the Barn's winter nucleus, and an experienced melodrama actress. Nellie's sweet and simple sister Barbara finds a sweet and simple characterization with Eleanor Sanford, while father of this country household is Ray Olsen, in his first Barn appearance.

Last year's hero, Virgil Moore, steps back into this cast as the law enforcing Constable Jenkins, while Tionette Miller, Strathmore, takes a small character role as Old Kate, a victim of over-indulgence.

Newcomers to the Barn are Allan Vincent of Exeter as the Derelict; Bill Marble of Strathmore steps into the part of a tough bartender; Ronnie Cohen appears as Pete the Rat, a nefarious Bowery character, Dick Malazzo as his sidekick in infamy, Ruth Schultz as Mamie, Queen of the Bowery, Vernon Scott as Chuck Connors, a smooth-talking, loud-mouthed tour guide, Charles Scott, as the haughty and sleepy Reginald Vanderlop, Elfrieda Allen as his wife, Mrs. Vanderlop.

Richard Putnam plays a nervous little well-to-do New Yorker named James H. Glue, and his fiancée Millie Q. Bluefish, is char-

## Art Exhibit

An exhibit of oil painting by Mrs. N. N. (Myrtle Sue) Redford, Exeter, will be shown through the month of March at the Roberts Studio in Three Rivers. The artist will be present at the exhibit on Sunday and Wednesday afternoons.

BACK IN Merry old England in the 12th century Shrove Tuesday, the day before Lent begins, was celebrated as "Pancake Day". The old custom is still observed in England, Canada and parts of the United States. The order of the day is a feast of fluffy golden pancakes.

In celebrating Pancake Day, or any other special occasion, try Pancakes Adirondack. They are a party dish of light tender pancakes with melted butter and shaved maple syrup between the pancakes and a mound of whipped cream on top. You'll have to try Pancakes Adirondack to appreciate their luscious goodness.

Pancakes Adirondack  
Pancakes:  
2 c ready-mix for pancakes  
2 1/4 c milk

FILLING AND TOPPING: Melted butter, shaved maple sugar, whipped cream.

Just add milk to unsifted ready mix all at once and stir lightly. Pour 1/4 cup batter for each pancake onto a hot, lightly greased griddle. Bake to a golden brown, turning only once.

Stack three pancakes placing melted butter and shaved maple sugar (or brown sugar) between each. Top with whipped cream; sprinkle with shaved maple sugar. Makes 14 to 16 medium pancakes.

acterized by Charlotte Montijo, well-known local singer. Excited young daughter of the Vanderlop household is handled by Olita La-sure, and the role of poor little mistreated Tommy, is played by Aubrey Lumley, III for his first Barn appearance.

Some of these same cast members work in the Olio acts in addition to a number of other outstanding acts familiar to valley audiences. Reserved seats are now available for all performances at Claubes Pharmacy, and tickets may be secured at the gate or from any member of the Porterville 20-30 Club which is acting as local sponsors of this play.

## Shopping ... with Betty

By Betty Scott

In case you're eying some of the city jobs . . . here's a warning. They're held down now by darn smart people . . . you'd have to know as much about the work as they, and be sharper than a Faro dealer or you'd be a dud in this league! And if you're the sentimental type, you can see the old library building all neatly stacked up out on the Springville highway . . . it probably will rise anew one of these days. More about that later.

Always startles me to read about the people in the middle west who have no electricity on their places . . . flabbergasts me to remember how little there is in the south. It occurred to me today, though, that to look at some of our homes . . . and not "old" ones, at that . . . with their lack of wall plugs and wall switches and floor out-lets you'd think we had no electricity either! It's unbelievable how slow-witted we can be about building 'til we move in! Put 'em on your list for that dream house and call 122 and get Bob Mishler of THE PORTERVILLE ELECTRIC to come out and fix your present wiring. He's a licensed electric contractor; get him to check all your wiring . . . costs much less than letting your house burn down! Our firemen are charming; but embarrassing callers . . . so abrupt!

The city asked for bids on wrecking the old library . . . they ranged from \$500.00 to \$1200.00 . . . Whew! So they sat down to think. Meanwhile, the man who agreed to haul off all the magazines and junk nobody else wanted for another load and the Librarian laughingly said, "When you get the place emptied, how'd you like to haul the building away too . . . I'll give it to you!" He wasn't a professional wrecker (yet); but a smart man who wanted bricks and lumber . . . so he gazed at it a minute and said "Sure!" That's how the city got the building out of the way . . . free!

My throat is sore and I wheeze slightly; sure signs that there's pollen in the air. Flowers all over the place, "worms" on the poplar trees and bees going crazy. I was dive-bombed by a humming bird last week. Ever experience it? Exciting!!! I was arguing with the bees over some blossoms we all wanted . . . suddenly thought a rifle bullet had gone by my ear, then it was in front of me . . . standing in the air glaring at me! Stopped to admire Marie's garden Monday, sure purty! She also showed me a lovely new batch of aluminum bowls, in Lustre-like finish; jewel colors and glass bowls in opaque colors! If there's a flower that grows that she hasn't the perfect bowl, vase, and holder for . . . I'll eat the flower, pollen and all! That's BREY'S BOOK SHELF, 600 N. D St.; perfect pottery bowls too!

My generation in our family decided that there should be a law against people of allergic families inter-marrying! . . . at any rate, having kids! If we aren't the snizzly-nosed bunch of critters! Most of us aren't married and the ones who are chose with care and have few kids . . . if they inherit it, I'll help 'em beat their parents! And we all have enormous feet! What a combination! Several of us have to have our shoes made to order . . . if we do buy a store pair, for fun . . . it's never fun. Have to have 'em rebuilt! Just got a pair back from CARROLL'S SHOE SHOP, Putnam and Division . . . thank heaven I found Mr. Carroll. He understands about odd feet. Got a not-right shoe? . . . he can fix it!

After the Library Building episode came the palm trees. City tried to give them away, tried to sell 'em, even . . . finally were reduced to taking bids on getting them removed and destroyed, lowest was \$120.00, sixty a palm. The Library board allotted the money and up jumped the airport manager! He wanted 'em to plant, he was allowed the \$120.00 . . . all cost over that he agreed to pay out of his budget. He got 'em down, moved, planted and guyed up . . . cost, over-all \$119.76! He saved the Library budget 24c, spent none of his own and has the trees living!

The main moral of that last story is that you can get what you want if you're willing to work hard enough. The hero of that tale worked like a man digging up dollars . . . he was! If there are short-cuts to success, I wish you'd let me know. All the ones I've heard about so far lead to disaster! Was discussing the matter with Newell Smith not long ago. He told me there are some short-cuts in the cleaning business . . . but he's scared to try 'em . . . they often wreck the clothes! They keep plugging on at PROCTOR'S CLEANERS using the safe methods and lots of skill . . . drop by the plant at Putnam and Fourth Sts. . . go through the whole place . . . I did . . . and you'll see why your clothes come home perfect when they go there!

Heard a man explaining the other day about how busy he'd been, he said he'd been going like a wind-mill all day. Of course his wife came back with, "Sure, around and around in circles!" I upheld him though, and insisted that I knew . . . he meant was that he'd been flailing out in all directions. And I think it's a wonderfully descriptive phrase! Going like a windmill all day! That applies best to a women with a batch of kids and a house to keep up . . . after a few years you begin to look it, too! Huh? Much the most relaxing thing I know of is a good working-over at FLORENCE PEAK'S BEAUTY SALON . . . a regular appointment once a week will give you a chance to get un-dizzied and squared away again. Call 107-W.

As I said in the beginning, city department heads hereabouts are smart in more than one way . . . they don't get the jobs by chance and you'd better think twice before you compete with them! You may find yourself with a lap full of bricks or palm trees, or what-not!

## Home Gardeners Warned To Control Scale On Ornamental Trees, Shrubs With Spray

By KARL W. OPITZ  
Farm Advisor

Home gardeners should take another look around for scale insects on their ornamental trees and shrubs. The olive Parlatoria scale is becoming a very serious problem with roses, plums, apricots, peaches, Toyon, privet and about 200 other trees and shrubs. At this time it is impossible to recommend an insecticide for general use that will give complete control.

Repeated spraying with a 2 per cent oil emulsion will give partial control and will prevent rapid spread of the insect. In many cases a good pruning is necessary to expose the leaves and stems of the plant so that complete wetting with the insecticide is obtained.

Prunings that are badly infected should be burned.

The best time to kill the olive parlatoria scale in most home gardens is from late April until the first week of June. Where infestations are heavy, however, it would be best to spray at once with a light summer oil emulsion. In the event that complete wetting cannot be obtained by the use of home equipment, the services of a reliable commercial operator with a high pressure spraying rig should be obtained.

## "Y" Club Boys Enjoy Party

Three hundred boys and leaders of Gra-Y and Jr. Hi-Y clubs from Tulare county celebrated Washington's birthday last week by spending a day at California Hot Springs east of Ducor. The boys enjoyed a swimming period in the warm waters of the pool under the watchful eyes of the adult supervisors.

Following the swim and picnic lunch, soft ball, horse shoes and races occupied the boys' and leaders' time. Winners of the 50 yard foot race were Billy Mosher of the Woodlake Jr. Hi-Y, first, and Gary Noice of Farmersville, second. Winner of the Jr. Hi-Y sack race was Dallas Hart of the Strathmore Jr. Hi-Y. Jerry Moll of the Farmersville Gra-Y took first place in the younger boys sack race. Two boys from the Strathmore Jr. Hi-Y, Bobby Nein and Jackie Haney won the three-legged sack race.

About 16 per cent more dairy cattle were imported into Los Angeles county during the last quarter of 1949 than during the same period in 1948.

## COW BELLES

Next meeting of the Tulare County Cow Belles is scheduled for Rosso's Cafe in Woodville, Saturday at 12:30 P. M. The Cow Belles group is the women's auxiliary of the Tulare County Cattlemen's association.

## Furniture Needed

A variety of furnishings are needed for a cottage on the Bartlett school campus in Porterville that is being used as a home economics classrooms by Mrs. Wasson, home economics instructor.

Persons desiring to donate any of the following items, should phone 245, Porterville: Mattress, floor and table lamp, ironing board, chairs, tables, pictures, draperies and large or small rugs. Minor repairs on these items can be made in the school shop.

## Band At Cafe

Chicken and steak dinners are a specialty at the West Side cafe on west Olive street, now operating under the management of Hurshel and Owen Rushing, who also own the Mohawk station and Cafe at Tipton.

Jack Day's band plays at the West Side cafe every Thursday, Friday and Saturday evenings.

## Grange Meeting

A potluck dinner and a social evening that featured Canasta and Bingo was enjoyed by members of the Porterville Grange at their February 20 meeting.

During the evening, Grangers joined in community singing, with Neale Carpenter at the piano, and Mrs. Mildred Orr gave a reading.

## Exchange Refunds

Checks totaling more than \$553,000 have been mailed to packing houses affiliated with the California Fruit Growers Exchange in California and Arizona. This payment is the third advance payment on the 1948-49 pool of The Exchange Orange Products company and there will be a final payment within the next several months.

Covering the entire California-Arizona producing area, Exchange advance products payments and refunds for the past season totaled almost \$10 million.

## Cattlemen Meet

Directors of the Tulare County Cattlemen's association will meet Monday evening at Goldie's Cafe, Sultana, to discuss problems of the association. All members are invited to attend.

The film, "All Flesh Is Grass," will have its first Tulare county showing at the meeting.

## ART WORK

Artists of Tulare county will be given an opportunity to display their work in the office of the Tulare county chamber of commerce, Municipal auditorium, Visalia. Persons in the southern Tulare county area who are interested should contact Mrs. Leafy Terwilliger, Porterville or Miss Sunshine Williams, Lindsay.

The Coalinga high school board of trustees is making plans to establish a school farm for the benefit of students.

## FAMILIES EARN \$17.33 PER DAY

How much does the average cotton picker earn?

The following figures, based on a recent canvas, are released by the San Joaquin Valley Agricultural Labor Bureau.

Total number of families surveyed, 2,283.

Number of weeks average picker worked, 13.26.

Average days pickers worked per week, 5.2.

Cash paid families for picking, \$2,727,700.

Average income per family for picking season, \$1,194.78.

Average income per family per week, \$90.10.

Average income per family per day, \$17.33.

## COURSE IN DAIRY MANAGEMENT WILL BE OFFERED THIS MONTH IN SERIES OF TULARE MEETINGS

A series of educational meetings for dairymen of Tulare county, known as the "Central Valley Dairy Management course," will open March 8, 8 P. M., at the Tulare high school, with additional meetings slated for March 15, 22 and 29.

Well-qualified speakers will address persons attending and a period for discussion and questions will follow each talk. The programs, open to the public, will be of about two hours in length.

The following program has been set up: March 8, "Public Relations in the Dairy Industry," Charles L. Senn, engineer-director, bureau of sanitation, Los Angeles city health department; "Con-

trol of Sediment in Milk," Dr. N. E. McDonald, assistant chief, bureau of dairy service, California state department of agriculture.

March 15, "Dairy Management and Milk Flavors," Don M. Kruse, farm advisor, Tulare county; "Diseases of Dairy Cattle," Dr. K. G. McKay, extension specialist in veterinary science, University of California.

March 22, "Diseases of Dairy Cattle, Breeding and Sterility," Dr. Robert Ormsbee, practicing veterinarian, Stockton; "Dairy Sanitation—Clean Up," George J. Lehn, manager, food processing division, Turco products.

March 29, "Dairy Bacteriology," Bromley Mayer, Knudsen creamery company; "Fly and Mosquito Control," Arthur Gieg, district manager of fly and mosquito abatement district.

"A Nice Place For Nice People"

A BROWN and juicy pork loin roast is always a family favorite. But the successful cooking of any roast starts even before the meat is put into the oven. As shown above, this step is to insert the stainless steel stem of a meat thermometer into the thickest part of the roast. The roast is then cooked in a moderate oven at the correct temperature as shown on the face of the thermometer. For fresh pork, this temperature is 185 degrees Fahrenheit.

## RIPPY WILL RUN

## Law Enforcement Stressed In Talk By Ed Shattuck

The importance of law enforcement in California was stressed by Edward S. Shattuck, Republican candidate for attorney general of California, at a press meeting of Tulare County Young Republicans Thursday evening at the Melody House in Visalia, and at a later "kickoff" meeting of the newly formed Tulare County Young Republicans, Mr. Shattuck stressed the importance of "maintaining freedom and preventing a disastrous slip into socialism."

Also speaking at the evening meeting was Joe Holt, Los Angeles, president of the California Young Republicans. Nat Bradley, president of the Tulare County Young Republicans, presided at the meeting, which was also addressed by State Senator J. Howard Williams.

Mr. Shattuck was introduced by Billy Mitchell, Visalia, chairman of the Tulare County Republican Central committee.

## DON'T PRUNE CITRUS TREES UNTIL SUMMER FOLLOWING FREEZE

By H. C. MEITH  
Farm Advisor

It will be some time before the full extent of citrus damage from the recent freezes will be apparent. There is sometimes an inclination on the part of the grower to prune off damaged wood as soon as it becomes noticeable, however, experience gained from past freezes indicates that no pruning should be done until at least the summer following the freeze.

On severely damaged trees, numerous sprouts may arise from the main limbs during the first summer after this freeze. Some of these sprouts should be selected to form a new top for the tree,

other new growth branches should be disbudded but left on to provide leaf surface.

As a precaution it seems advisable to whitewash any tree that is severely defoliated. Fifty pounds of lime and five pounds of zinc sulfate to one hundred gallons of water is a good formula.

Extra fertilizer or irrigations to stimulate the recovery of frost damaged trees will be of no benefit and may actually be harmful.

Roof run-off waters can be used to an advantage if some are directed around acid loving plants. Rain water assists in removing excess alkali salts where drainage is adequate.

## TEST PLOTS

More than 400 plots, testing various types of farm practices, will be under study during 1950 by the Tulare County Extension service, according to Farm Advisor William E. Gilfillan. Eight farm advisors will work with these projects, over 200 of which are for the current year, the others carry-over on a long-term testing program.

## FLOOD CONTROL

C. A. Griffith, chairman of the California Water Resources board, this week submitted to a senate committee a budget of \$81,949,000 for federal funds to continue work this year on 25 flood control projects—a figure at least \$32,000,000 more than President Harry S. Truman has budgeted. Success dam and Terminus dam are not included in the request for funds.

## TREND DOWN

California farmers indicated on February 1 that they plan to buy about 12 per cent fewer baby chicks in 1950 than they did in 1949, according to figures gathered by the California Crop and Livestock Reporting service.

Paul Dobson, Exeter, is the new president of the Sequoia Walnut Growers' association.

## ECONOMY OF MEAT PRODUCTION AS RELATED TO FEED AND VARIOUS TYPES OF ANIMALS IS DISCUSSED

By ROBERT H. ANDERSON  
Farm Advisor

Relative economy in production of meat from the different meat animals depends upon the quantity and kind of feed available and labor needed.

The relative costs of production of pork, lamb, beef, turkey, rabbit and chicken meat were discussed recently by Arthur Shultis, far management specialist of University of California Agricultural Extension service. Shultis' statements were based on records compiled by producers in cooperation with the Extension Service.

The feeds used for different types of meat animals vary widely in kind and cost. Natural grass on our valley, foothill and moun-

# SPORTS

BY  
HARRY BRITTON

This article is my change of pace. It is dedicated to those of you who are not baseball fans, but who like movies and stuff and things.

In her new home out Castle Heights way in Los Angeles, Virginia Mac Pherson, United Press Hollywood correspondent, was interviewed by your scribe—How come you say? Here is the punch line—"Ginny" as she is called by her close friends and distant relatives, happens to be the sister of my son-in-law by marriage. Anyhow the gorgeous lady just returned from a two weeks trip by air from Germany to get some impressions, sexy or funny, for the United Press in connection with a preview of the picture FRANCIS—the talking mule produced by Universal-International, our armed forces being the first to get a look-see. Two of the stars in the picture—Donald O'Connor and Patrick Medina made the trip. Yvonne De Carlo, she of the

temper tantrums, Lois Andrews and Jackie Coogan, also went along for the buggy ride.

Stops were made at Weisbaden, Munich and Frankfurt. The high light of the trip, other than belonging to the mile high club, and don't ask me what the prerequisite of membership is, was the trip to Garmisch, in the Bavarian Alps, in a cable car where you go up to the highest bar in the world 10,000 feet. You can see Yugo-Slavia, Germany, Austria, Italy and Switzerland, if you haven't guzzled to much schnapps.

Coming home, stops were made at the Azores and Bermuda. Virginia and the other members of the party figured out that the trip would have cost them 4 grand each, not including breakage—a nice job if you can get it.

Now here comes the human interest pitch. Normally Virginia worries about getting down to the office to get out her column before the dead line—frets to get home and relieve the baby sitter, then works herself into a dither to get to bed so she can get up again by 6 A. M. ACHE.

## THE OLD DAYS

From miscellaneous files of pioneer Porterville newspapers, provided through the courtesy of Howard J. Frame, Porterville.

### PORTERVILLE ENTERPRISE March 11, 1892

Last Tuesday night there was a fairly representative meeting of the business men of the town, held in the Pioneer Hotel, to consider the subject of sewage. P. P. Davis took the chair, on motion, and opened the proceedings by asking Mr. William Thomas, president of the Pioneer Land Company, for his opinion.

Mr. Thomas explained that sewers could be constructed without incorporating the city and that, should that be done, the cost, he estimated would amount to about \$10,000.

Some being in favor of and others against incorporation, a committee of five, viz. Dr. S. G. George, L. J. Redfield, J. E. Sheuy, E. Newman and A. M. Lumley was appointed to furnish statistics and prepare and present a petition to the citizens.

Following is the roll of honor of Third Room in the Porterville school for the sixth month ending March 5: Frankie Adler, Johnnie Carter, Exer Whitlock, Willie Leslie, Neva Wood, Tommy Wallace, Iris Newman, Pearl MacDougall, Lou E. Schulz, Alice Davidson, Walter Whitlock, Lizzie

Montgomery, Rosa Hall, Hattie Owen, Frida Ducommun, Job H. Tyler, Joseph Carter and Della Wallace. Florence C. Starr, teacher.

Roll of honor for the Fourth Room: Ora Avery, Addie Parker, Netta Hall, Nettie Wallace, Artie McFarland, Bertha Tatman, Emma Fontain, George Williamson, Hallie Whitlock, Lena Young, Maud Manter, Maud Best, Lena Miner, Hubert Smith, Annie Miner, Robert McDonald, Oscar VanDeusen, May Maddux, Jerry Becker, Gra Beebe, Tommie Conway, Anna Ducommun, Addie Cole, Harold MacDougall, Emma Gardner, Ida Frame, Bessie Vaughn and Eugene Parker. L. F. Hines, teacher.

J. Wymore and family arrived yesterday evening from Barton county, Missouri, and will make Porterville their future home.

A. R. Moore, a photographer, is in town and contemplates opening a gallery in a few days.

The total amount of produce shipments from Porterville by Wells Fargo & Co. during the months of November, December, January and February amounted to 80,417 pounds, divided up as follows: Dressed poultry, 66,875; eggs, 8,697; fruit, 2,267 and game, 2,578.

Frank Baker of Visalia has called a meeting for the 19th of March for the purpose of raising \$2,000, when he will attempt to produce one inch of rain during the month of April.

L. D. Whitt has rented his house to F. A. Doty and will for the future reside in Visalia.

Drs. Brumfield and Hardeman will set out 600 orange and 200 lemon trees on their place on the County road.

Around Porterville the grain is growing finely. The prospects were never better. Over seven inches of rain have fallen.

William Monroe is having a well bored on his lot at Woodville and expects to build soon.

J. J. Doyle, in company with three other gentlemen from Tulare, was up in the Redwoods above Coburn's mill last Thursday and Friday looking at some of the big trees. Their purpose is to obtain one for the World's Fair. They have not made any selection as yet.

Hobart Webster is planning a jaunt to Kern lakes in company with another pedagogue.

L. L. Gill is collecting debts due him for meat. Louis Long is trying his luck as a collector. Allen Henderson, John Ruppenthal and Mr. Foster, all of Springville, were in Porterville, Monday.

The dance at Woodville Friday evening was a great success. There was a big crowd, a fine supper was served at the Woodville Hotel and dancing kept up until early morning.

Zimmerman Brothers have completed building their ditch which they feed from White River.

## GREATER NUMBER OF SUGAR BEETS PER ACRE IS STRESSED AS MEANS OF INCREASING GROWER RETURNS

By Ralph L. WORRELL  
Farm Advisor

One of the most important factors in determining the percentage of sugar in sugar beets at time of harvest is the number of beets per acre in the field, according to Wayne Weeks, Extension Specialist in Sugar Beets, who spoke at a recent meeting of sugar beet growers in Tulare county, held at Visalia.

Mr. Weeks reported that most growers in this area of the San Joaquin Valley do not leave enough sugar beets per acre in their field. With a lower number of beets it means that there is more fertility available to each one. This delays their maturity and accordingly reduces the sugar percentage at harvest time.

Conversely, a larger number of sugar beets means that the fertility is used up sooner, thereby permitting the plants to store the sugar in the roots, which otherwise would be used for making new leaf growth.

The optimum number of sugar beets which Mr. Weeks suggested would be about 30,000 per acre. This would mean a sugar beet every 6 or 7 inches down the row if the rows are spaced 30 inches apart. More beets than this per acre probably won't do any harm, while less beets probably would reduce the sugar percentage at harvest time.

The total population of beets is more important than the uniformity of stand. In other words, a few doubles and triples of beets in the field will not do any damage. In order to obtain this greater population of beets per acre Mr. Weeks suggested that farmers use a smaller hoe for thinning their stands. He suggested use of a four inch or five inch hoe. When the beets are thinned, careful supervision was suggested in order that the hoers would leave the largest seedlings in the field and just remove the smaller ones.

Two other factors were suggested as being important in influencing the sugar content of beets. One was to get the beets growing

just as fast as possible during the early spring, in order to get the maximum growth of the beets by the time early summer arrives. This will permit greater leaf growth of the beets and hence a greater production of sugar in the plant.

The other factor which beet growers are cautioned to watch is the control of weeds in the field. Weeds not only compete with the sugar beets for the nitrogen and other nutrients in the soil and the water, but they also compete for the sunlight and the sunlight is essential for good sugar production.

The meeting of sugar beet growers was called by the Field Crops department of Tulare County Farm Bureau, under the chairmanship of Harold Cameron, Lindsay.

## WHY NOT FURTHER EFFORTS TOWARD GETTING AIR SERVICE IN PORTERVILLE?

Since the Civil Aeronautics Authority turned down the application of Southwest Airways for an airline route that would include Porterville, Tulare and other towns along the eastern side of the San Joaquin valley, attitude seems to be in Porterville that all hope for air service has now been killed.

We doubt that this is true. We believe that the Porterville chamber of commerce air committee should again become active and start looking into other angles through which an air service into Porterville might be secured.

Specifically, we might suggest that someone contact United Air Lines. This organization has regular flights up and down the valley, has stops at Bakersfield and Visalia and it is just possible that a deal could be worked out whereby United could put Porterville on its schedule.

Porterville, and all of the southeastern Tulare county area, needs better transportation facilities. A step toward filling this need would be taken with the establishing of commercial air service off the Porterville Municipal field.

We suggest that the chamber of commerce air committee be re-activated and that it continue work on this matter of air service for the Porterville community.

## We Only Heard

By BILL RODGERS

WHEN WE mentioned horse racing on Main street in this column last week, we revived memories in several unexpected quarters, some of the now prominent business men of the community telling us of the many times that kids' horse races were broken up by the long arm of the law in the interest of public safety, the law in those days being Ed Isham and Bill Maston.

Ah me, the good old days! WE NOTE in passing that the Tulare County Farm Bureau program is gaining momentum all the time in the southeastern county area, active centers now functioning in Woodville, Terra Bella and Ducor. Porterville could stand more than a little shot in the arm on this matter.

STANLEY TRUEBLOOD, Manager of Tulare County Fruit Exchange, turned the neatest trick of the season when, unbeknownst to him, he became officially rated as a breeder of Arabian horses. And with only one Arabian—a gelding.

ON THE theory that benefit to one segment of the community means benefit in some degree to the rest of the community, we want to again call attention to the importance of road connections between Tulare County and the Johnsondale country. A "circle route" up the Kern canyon, through Johnsondale, along the Western Divide, through Aspen meadow and Springville, or an improved road down Deer Creek would be a definite asset to Tulare county. We understand the powers that be are getting their collective heads together on this business.

OUR CONGRATULATIONS to the leaders of 4-H clubs in Tulare county who spend such a great amount of time in maintaining the 4-H program. Certainly these leaders are doing a great piece of work, for it will be difficult to ever sidetrack any boy or girl who has participated in 4-H work into any of the isms, and the head start in farming and in living that 4-H boys and girls get will benefit them throughout their life. . . . The 4-H program across the nation is a great program and deserves the national observance that it will get March 4-12.

## TAX COMMITTEE

Tax committee of the Tulare County Farm Bureau, that each year studies and makes recommendations concerning the budget of Tulare county and also checks state and national tax legislation, is now composed of: J. E. Jordan, chairman, Exeter; A. R. Burge, Dinuba; S. W. Murray, Oroquieta; E. Pennebaker, Exeter; Neal N. Lowe, Tulare; Wm. L. Marble, Lindsay; Theo. L. Crains, Lindsay; Russ Davis, Visalia; Ira J. Chrisman, Visalia; Stary Gange, Strathmore; Ray Oesting, Tulare; A. A. Boswell, Visalia, Mrs. Chas. Fisher, Strathmore; A. J. Dula, Visalia; T. M. Ethridge, Oroquieta; Roy R. McLain, Visalia; Chas. Hamilton, Visalia; Florence Doe, Visalia; Richard Berry, Oroquieta; Herman Colpein, Tulare.

Honey production in the United States for 1949 totalled 226,978,000 pounds, 10 per cent more than in 1948.

## Foot And Mouth Disease Eradication Throughout Mexico Seen As Possibility

State Senator George J. Hatfield of Newman, reported this week to the State Board of Agriculture on the progress of the Mexico-United States campaign against foot-and-mouth disease in Mexico. Heading a special legislative committee, consisting of himself and State Senator Harold J. Powers, which recently returned from Mexico, Senator Hatfield said that there is a possibility the disease may be eradicated and Mexico eventually freed of the restrictions which are now enforced to control the infection.

Dr. C. U. Duckworth, assistant state director of agriculture, accompanied the committee as technical advisor.

While there is reason for optimism for the eventual success of the eradication program in Mexico, a considerable period must elapse before there can be any relaxation of quarantine measures and vaccination, he said.

Senator Hatfield also reported on his observations of the disease in European countries, made in the course of his vacation abroad late last year.

Based on the remarks of the senator of the need for the broadest type of information on methods used against the disease in all countries, the Board recommended that Dr. Duckworth, and Dr. Jacob Traub, Professor of Veterinary Medicine, California College of Agriculture, be sent to Europe this summer to observe conditions and report the the state legislature through Senator Hatfield's committee.

## UNION OFFICERS

Officers of the Porterville local of the National Farm Labor Union elected at a meeting in Porterville Friday night include: O. T. Carr, president; R. L. Scott, vice president; Lewis Kirk, secretary-treasurer; James Lawrence, sergeant-at-arms; D. L. Duke, Ora L. Carleson, Floyd Gray and John Hogan, board members.

William Pettit, former president, and his officers, resigned last week following a dispute with Labor Organizer William G. Trafton concerning accounting of union funds handled by Trafton. Trafton accused Pettit, and other officers, of "selling out" to the Tulare county board of supervisors at a recent meeting.

## WATER IN CANAL

Indication now are that some Class 2 water may be available in the Friant Kern canal this year for use by districts that have completed contract agreements with the United States bureau of reclamation, according to bureau officials.

## INN ABATED

Superior Judge Frank Lamberon this week abated the Truck Drivers' Inn, just south of Porterville, for one year and ordered that Henry and Elizabeth Landon, Thelma Zirkle, Norma Collins and Margaret Jameson be restrained from using the building. The county sheriff has been instructed to sell the furnishings.

Permanent pasture seedbeds should be smooth, firm and well-pulverized with no cross-slope within irrigation checks.

## HORSE RACES

The Three Rivers community is planning a program of horse races at the community airport on April 16, with Ray Buchman, Milo Bonifield and Fred Walker on the race committee.

## CANAL WATER BY MAY 15?

Irrigation districts in the southern Tulare county area are now making preparations to receive Class 2 water from the Friant-Kern canal by May 15 of this year.

At a gathering Tuesday, in Tulare, representatives of the Lower Tule Irrigation district and the Porterville Irrigation district met with Bill Alexander, of the bureau of reclamation to consider needs, with the Lower Tule asking for 150,000 acre feet and the Porterville district, 16,000 acre feet. Distribution in the Porterville

district will probably be through existing ditches. The lower Tule district expects to use Porter slough and the Tule river to get canal water to the district.

## Lindmore Gets Title To Building Site

Lindmore Irrigation district this week acquired title to the Johnson Painter property south of Lindsay and directors will go ahead with plans to construct a district office on this property. Plans of the Strathmore chamber of commerce to ask a recall election on members of the Lindmore board as a result of differences of opinion as to where the office building should be placed, did not materialize this week.

### Paint Shop

Bud Johnson, formerly service manager for Dick's Automotive, has reopened the Vandalia Paint shop at 948 Vandalia avenue. His specialty will be car painting and body and fender work.

Over 50 years in Porterville

**JONES HARDWARE CO.**  
PORTERVILLE, CALIFORNIA

CAROLE NORMAN, as Nell, the farmer's daughter, cringes as John Vaznaian, the villain, Richard Murgatroyd, threatens her with a horsewhip while Leland Mehrten, as Honest John Dalton, prepares to give the villain his just reward. This all has to do with the Porterville Barn Theater melodrama, "The Dead Sister's Secret," that opens tomorrow night, March 3, for a run through March 5, and for four nights, March 9-12.

## OFFICE SET UP AT WOODVILLE FOR LOWER TULE

Office of the Lower Tule River Irrigation district has been set up at Woodville, 942 Highway, next to the Williams Service station. Norman Vossler, assessor-collector, states that he will start assessing property in the district on the first Monday in March.

### Business Moves

Farmers Tractor and Equipment company has moved from its former location on Main street, just south of Olive, consolidating the entire business at the shop location on highway 65, south of the Tule river.

### RECREATION CLUB

G. L. Meek, Torrance and L. F. Young, Bellflower, have opened the Porterville Recreation club at 524 North Main street in Porterville.

## Five Winners In Coop. Quiz

Five winners—Howard Walker, Maynard Sommer, George Williams, Raymond Caldwell and Jim Cline—were announced at the annual cooperative marketing quiz conducted for Porterville Future Farmers Friday evening.

The quiz is based on questions concerning cooperative marketing; boys competing first study information concerning cooperatives operating in the San Joaquin valley.

Organizations sponsoring the quiz, include: California Cotton association; California Fruit Growers Exchange; California Walnut association; California Growers' Winery; Challenge Creamery and Butter association; the San Joaquin Valley Poultry Producers association and the Sun Main Raisin Growers association.

Porterville F. F. A. winners will compete in a sectional cooperative quiz in Porterville March 15 against winners from Kings and other Tulare county schools.

### SUGAR BEETS

Results of fertilizer tests on sugar beets in Tulare county are summarized in a leaflet that is available in the office of the farm advisor, postoffice building, Visalia.

Type of fertilizer, time of application and methods of application are discussed in the leaflet as related to production of large-growing beet plants with a high sugar content.
